

10 August 2020

To: Potential Crescent Engineering FZE Customers

Dear Sirs

GasTech Engineering LLC, with its Corporate facility located at 2110 Industrial Road, Sapulpa Oklahoma, USA, has formed an exclusive technology license agreement with Crescent Engineering FZE, with its corporate facilities located in National Industries Park, Jebel Ali, Dubai UAE.

Working via this technology license agreement with GasTech, Crescent will use its capabilities and resources to take responsibility for all its products globally excluding, North and South America and domestic India.

Through this technology license agreement, Crescent Engineering is authorized to supply you with GasTech branded process equipment, which will be manufactured in Crescent's facilities in the UAE or one of our approved subcontracted vendors.

This exclusive technology license agreement gives our customers the assurance that each and every product sourced through Crescent Engineering conforms to the same high level of standards that GasTech manufactures in the USA.

Both companies work in close collaboration with the required disciplines involved in the execution. GasTech Engineering LLC USA provides the process guarantees.

During any phase of the project life cycle, if you have any concerns, you are free to contact us in the USA directly. However, Crescent and GasTech will be working as one team to meet the needs of our customers.

Sincerely,

Joe Reeble

Chief Executive Officer

GasTech Engineering LLC
